

AAG CAL-NAT

For all livestock

General Description:

AAG Cal-Nat is an acidified product manufactured with a proprietary process to provide a source of calcium in a highly absorbable form. It contains 10% calcium.

Feeding Directions

AAG Cal-Nat is a source of biologically accessible calcium that can be fed to all livestock and pets. Please consult your nutritionist for feeding recommendations specific to your feeding situation.

Ingredients

Citrus Peel, Egg Shell Meal, Hydrochloric Acid, Citric Acid, Propionic Acid.

Key Points

1. "Natural" calcium from egg shells.
2. Will acidify feeds because the pH is under 4.
3. Improves feed intake because of high palatability.

AAG Cal-Nat
40 Pound Bags
Product Code: **AAG4004**

WARNING
KEEP OUT OF THE REACH OF CHILDREN
FOR ANIMAL USE ONLY

STORAGE
Store in a dry, cool place. Do not store in direct sunlight. Do not store near a heat source. Seal packaging tightly when not in use.

AAG CAL-NAT

For all livestock

Product Features:

10% Calcium from egg shells

pH under 4

High palatability

Highly soluble peptides and phytonutrients

Made in US facilities free of porcine products

Dry meal

Product Benefits:

Eggshells are very high in calcium carbonate crystals and stabilized by a protein matrix.

Feed acidifiers help decrease digesta pH which appear to improve nutrient digestibility and gut functionality.

Many animals find the acidic taste attractive and will seek out feed with acidic flavors

Provides readily available peptides and phytonutrients from citrus peels that is easy to digest; maximizes animal performance economically

Improved biosecurity

Easy to use.
