

AAG PIG IRON

For Piglets

General Description:

AAG Pig Iron is a dry iron nutritional supplement for piglets. AAG Pig Iron uses patented carrier technology to make a palatable, easy-to-feed supplement that piglets find appealing.

Feeding Directions

AAG Pig Iron may be fed as a source of supplement iron to piglets from 3 days of age up to 35 days of age.

Assuming that litter size is 9-11 piglets, feed:

- 0.75 oz (21 g) per litter from 3 to 6 days of age
- 1.5 oz (42.5 g) per litter from 7 to 21 days of age
- 2.25 oz (64 g) per litter from 22 to 35 days of age

Ingredients

Citrus Peel, Ferrous Sulfate, Glycerin, Natural and Artificial Flavoring, Lactic Acid, Manganese oxide, Iron Sulfate, Iron Polysaccharide Complex, Iron Amino Acid, Complex, Zinc Methionine Complex, Propionic Acid, Copper Sulfate, Folic Acid, Thiamine Monohydrate

Key Points

1. Source of highly available iron.
2. Very palatable.
3. Easy to feed.

AAG PIG IRON

For Piglets

Product Features:

Multiple sources of Iron

Added trace minerals

Added Vitamins

High palatability

Product Benefits:

Multiple sources of iron allow iron to be absorbed at different points along the digestive tract, ensuring the piglet gets all available chances to absorb the iron that they need.

While other trace minerals are not as critically short for baby pigs as iron, they still need these trace minerals.

Co-factors for energy generation

Piglets readily eat this supplement.
